Description

Model 1RC**** are small, low weight, rugged radial piston pumps with 3, 5 or 7 pumping elements. These pumps are valve controlled and have no restriction on direction of rotation. These pumps can be submerged in oil or externally mounted above oil level.

Pumps with model code 1RCE*** have extension shaft for through drive and are available with extension bracket assembly for coupling a pump having standard flange as per ISO 3019/1. Refer data sheet no. D 09090 for Extension Bracket details.

These are available with 21 displacements and 7 pressure ratings. The pumps give fixed output per revolution of the shaft.

Section

Model : 1RC***

Model : 1RCE***

Technical specifications

Designation : 1RC is a basic radial piston pump with casing. 1RCE is a radial piston pump with casing and extension shaft.

Design : Radial piston, valve controlled.

No. of elements : 3, 5 or 7.

Mounting interface : Factory standard, Face mounting with Air purge port at highest level. Suction Foot Valve recommended refer data sheet no. D 12400.

Direction of rotation : 1RC - No restriction on direction of rotation.
                      1RCE - Depends upon the direction rotation of pump attached.

Connection : Suction port (S) - G1/2 female.
             Delivery (P) - G3/8 female.

Speed range : 300 to 2000 r/min.

Max. Suction Head : At no time allow the oil level in the tank to fall 500 mm below the axis of the pump, when the pump is mounted horizontally, or 500 mm below the mounting face of the pump, when the pump is mounted vertically (case filling recommended).

Flow and Pressure : Refer Table no. 1

Torque limitations : Input drive shaft - 75 Nm
                    Extension shaft - 53 Nm

Hydraulic medium : Mineral oil.

Temperature range : -20°C to + 80°C.

Viscosity range : 10 cSt to 100 cSt.

Fluid cleanliness required : ISO 4406 20/18/15 or better.

Mass : Model : 1RC3 1RCE3 1RC5 1RCE5 1RC7 1RCE7
       Kg : 10.0 10.1 10.2 11.0 10.3 11.1
Unit dimensions

Pump without extension shaft
Model - 1RC3 OR 1RC5 OR 1RC7

- Casing air bleeding plug (10 A/F)
- M8x12 deep, 4 nos on 80 P.C.D.
- Tightening torque 39 Nm.

Pump with extension shaft
Model - 1RCE3 OR 1RCE5 OR 1RCE7

- Extension bracket mounting
  M10 x 17 deep holes, 2 nos.
  Tightening torque 77 Nm.
